WORK HISTORY

Mobile Engineer, 11/2023 - 01/2025

[GoLivWell](#) – (Wellness) - Remote.

LivWell client app allows users to book fitness and wellness solutions, manage membership, track health metrics, and engage with their wellness provider. Features are available based on the services offered by partnered gyms and studios. A seamless way to stay connected with your wellness journey. App developed with React Native.

Fullstack Software Engineer, 02/2023 - 10/2023

[Insage](#) – (Insurtech) - Remote.

- Insage is an insurtech solution with special focus on mobility insurance. I work on the product to implement frontend with reactjs and backend with nodejs as assigned per time. I have worked on features such as Motor insurance purchase , Verify Policy, etc. This project is still in its early stage.

Frontend Engineer, 02/2023 - 7/2023

Crust – (Fintech) - Remote.

Greenbanker Team

- [Greenbanker](#) is a fintech solution for smallholder farmers. I worked on the product to implement UI and API for features such as payments, transfers, user dashboard, etc.

POS Team

- [Crust POS](#) enables cash withdrawal, VAS, payment, and deposit services, and provides loans to POS agents. I worked on the product to implement the UI and API in the POS solution, implementing features such as Transfers, User Dashboard, POS Management, NIP Transactions, Loans, Agent Commission, POS Activity, etc. This solution is used in thousands of POS Devices, processing thousands of transactions resulting in hundreds of millions in daily transaction volume.

Software Engineer, 03/2022 – 01/2023

Bullstand – (Crypto) – Remote

- Developed crypto on ramp and off ramp cryptocurrency solution to test the market in 3 months which generated \$10k+ monthly revenue.
- Used React Helmet to optimize to meet industry and company standards for SEO and Accessibility. This resulted in a 640% increase in SEO Visibility.
- Implemented web applications design with ReactJs along with 3rd-party software integrations.
- Managed the tech team.

Frontend Engineer/Product Manager, 01/2020 - 09/2022

YConnector – (Adtech) – Lagos

- Implemented AWS and DigitalOcean to integrate Sendy in company cloud infrastructure.
- Developed ad-tech management, analytics platform solutions as part of a 8-person MVP team.
- Worked with the PM to keep on track with the project plan, and timeline on average, this saved 2 days of communication per month.
- Implemented user interfaces design with pixel perfect precision without compromising functionality for aesthetics.
- Worked with Quality Assurance to test new pages/products, and addressed any issues within 36 hours.
- Mentored 1 new junior front-end developer in the team in expanding JavaScript and React skillset.
- Managed the tech team.

Frontend Engineer, 1/2019 - 12/2019

[Alaajo](#) – Lagos.

- Developed fintech solutions, and automated internal processes that resulted to \$20k+ in monthly revenue.
- Rebuilt field-agents collection application in React with full user experience redesign to release a beta MVP in 6 months.
